GROUNDING IN RESEARCH, BACKED BY SCIENCE, DRIVEN BY RESULTS.

At VetriScience®, our mission is to provide veterinarians, pet owners and pets with advanced support for common animal health concerns. Backed by science, and complementary to traditional approaches, our superior-quality supplements feature pure, highly researched ingredients—developed by veterinarians for pets.

MADE FOR VETERINARIANS

In 2014, VetriScience® launched the Pro Line featuring cutting-edge products developed for veterinary use. Our mission is to provide veterinarians with advanced care products backed by science to address every aspect of animal health from daily maintenance to condition-specific formulas.

DEVELOPED BY VETERINARIANS

VetriScience® utilizes veterinarian feedback to improve and expand our line of supplements. Our products are developed through extensive research, clinical testing and collaboration with leading-edge veterinarians. We're committed to underwriting clinical studies that exemplify the safety and efficacy of our products.

50 YEARS EXPERIENCE

VetriScience®, a FoodScience® brand, pioneered the use of supplements to address animal health concerns. For 50 years, we've been producing high-quality and effective supplements to support animal health.

100% SATISFACTION GUARANTEE

We manufacture our products in a certified Safe Quality Food (SQF) facility that strictly adheres to FDA guidelines. Our formulas are reviewed by veterinarians, designed to meet AAFCO and NASC requirements and tested for palatability. In addition, our ingredients are routinely tested for composition and purity to guarantee the superior quality of our products.

TRUSTED QUALITY

FoodScience®, the parent company of VetriScience®, is a founding member of The National Animal Supplement Council (NASC), the leading association helping to promote pet supplement safety and quality. We carry the NASC Quality Seal on every product we make, so you can feel confident in what you give your patients—and your own pets.

PREMIUM CARE FOR YOUR PATIENTS

Provide the high-quality, tailored care that your patients and clients deserve. The Pro Line features advanced, condition-specific supplement formulas that clients can easily pick up in-clinic or order from a partnered online pharmacy. Let Pro Line help you provide premium care to every patient, every time.

VETERINARIAN APPROVED

DR. ELIZABETH DELOMBA, DVM, MBA
Senior Veterinary Services Consultant at VetriScience®

VetriScience® Laboratories has always utilized veterinarian feedback to improve and expand our product line. We take pride in offering our veterinary customers condition-specific products based on the animal health issues that veterinarians see in their practices every day.

Dr. DeLomba combines extensive clinical experience with 13 years of management in veterinary pharmaceuticals. She has authored over 50 veterinary articles and continuing education courses. Dr. DeLomba earned a DVM in Veterinary Medicine from Michigan State University and a MBA from Villanova University.

GROUNDING IN RESEARCH

PERIO SUPPORT

EVALUATION AND COMPARISON OF THE EFFECTIVENESS OF VETRISCIENCE® POWDERED PERIO SUPPORT ON THE REDUCTION OF PLAQUE, CALCULUS, AND GINGIVITIS IN ADULT DOGS

The VetriScience® Perio Support powder was evaluated using double-blinded trial protocol. A total of 20 canine (Greyhound) subjects' teeth were evaluated. Study subjects in each test group were offered the assigned control or test product twice daily during a scheduled meal feeding. Prior to the study each animal had his/her teeth cleaned, scaled and polished after which the presence of gingivitis, calculus and plaque was assessed. Evaluation of plaque, gingivitis, and calculus was completed on each animal 14 and 28 days after the initial assessment. The examination of teeth included the buccal surfaces and both sides of the mouth. Review was limited to the following seven teeth: Maxillary Canine, Maxillary 3rd Premolar, Maxillary 4th Premolar, Mandibular Canine, Mandibular 3rd Premolar, Mandibular 4th Premolar, Mandibular 1st Molar. Experienced dental hygienists performed the scaling and scoring of the teeth. Specific criteria for evaluation are those set forth by VOHC (Veterinary Oral Health Council).

Perio Support reduced the prevalence of plaque by 20% and tartar by 18% in a double-blind testing of dogs in just 28 days!

Administering Perio Support powder to the dog's food twice daily at the recommended amount resulted in a significant decrease in plaque formation as well as a strong trend in the decrease of calculus formation. Results demonstrate the reduction in overall plaque by 20% and calculus by 18% in the 28 day trial when compared with the control subjects.

VETRIFLEX®

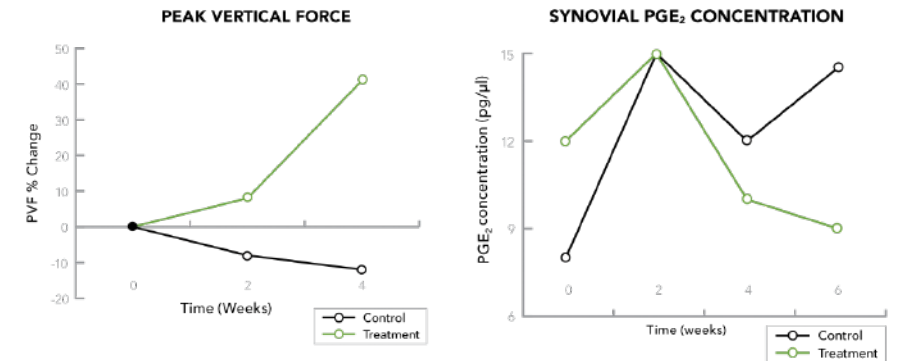

FEATURING THE CLINICALLY PROVEN GLYCOFLEX® 3 FORMULA WITH PERNA CANALICULUS

VetriFlex® contains essential building blocks that support cartilage, synovial fluid, ligaments, tendons and collagen.

Features the clinically proven GlycoFlex® 3 formula, which showed a 41% increase in hind leg strength in four weeks, plus the additional herbal extracts.¹

Clinical trials with dogs and cats have shown that *Perna canaliculus* supports mobility, range of motion, and the overall comfort level of animals.

Clinically proven to increase hind leg strength by 41%

Treatment dogs showed a 41% increase in peak vertical force after 4 weeks of treatment with GlycoFlex® 3 compared to pretreatment values.

Prostaglandin PGE₂ concentrations of control versus treatment group over time.

PHYTOSOME – INCREASING THE POWER OF BOTANICALS

The Phytosome Complex is defined as a solid dispersion of an extract in a dietary phospholipid matrix (non-GMO lecithin from soy). In the phytosome process, an ingredient becomes an integral part of the lipid membrane, thus improving the systemic bioavailability when administered orally.^{2, 3, 4}

CURCUVET® (CURCUMIN PHYTOSOME)

Pharmacokinetic studies demonstrate a nearly 30-fold increase in bioavailability when compared to standard curcumin extracts.⁵

CASPEROME® (BOSWELLIA PHYTOSOME)

The bioavailability of Boswellic acids from Casperome® is greatly optimized both at the plasma and tissue levels.⁶

LEUCOSELECT® (GRAPE SEED PHYTOSOME)

Research has demonstrated LeucoSelect®'s ability to reduce oxidative stress and support plasma antioxidant defenses, both in physiological and clinical conditions.

ASSESSMENT OF ANXIOLYTIC PROPERTIES OF A NOVEL COMPOUND IN BEAGLE DOGS WITH A NOISE-INDUCED MODEL OF FEAR AND ANXIETY

OBJECTIVE OF STUDY

To demonstrate that a single dose of VetriScience® Laboratories' Composure™ (novel compound) would have situational anxiety reducing properties in hyperactive dogs exposed to a thunderstorm model of fear and anxiousness, with specific objectives of establishing the onset and duration of anxiolytic properties of Composure™.

METHOD

A blinded, repeated measures design was employed where 24 dogs meeting the test criteria were divided equally between test Group 1 (Composure™) and control Group 2 (Control).

Clinically shown to work within 30 minutes

Clinically shown to be effective for up to 4 hours

NOISE INDUCED MODEL

Using software that measures the distance a dog travels around the test area over time, the distance each dog traveled was measured at baseline, and then again for two separate administrations of the thunder track at 30 minutes and four hours.

Results show that the distance traveled at 30 minutes and four hours by the control Group 2 was higher than the Composure™ Group 1 dogs when exposed to the thunder track, indicating a greater fear response in the control Group 2. Less distance traveled after 30 minutes and 4 hours in the Composure™ Group 1 indicated a calming effect.

SUMMARY

The dogs taking Composure™ showed a greater statistical reduction of thunder-phobic activity at either 30 minutes or 4 hours after administration as compared to the control group. This result suggests a calming effect in the Composure™ group not seen in the control group.

EFFICACY OF AMILEXTIN® ON QUALITY OF LIFE AND PHYSICAL FUNCTION IN BEAGLE DOGS WITH OBSERVED JOINT DEGRADATION

OBJECTIVE OF STUDY

The objective of this study was to demonstrate the effectiveness of Amilextin® chews compared to a control in reducing scores using a quality of life questionnaire called CBPI that is designed to evaluate discomfort, and physical evaluation using a T-maze with obstacles. This evaluation was tested with laboratory environment-housed beagles showing signs of occasional joint discomfort.

METHOD

Twenty-four (24) beagles were used in a blinded, parallel, matched-group design. Each subject underwent a baseline evaluation which included a physical examination, T-maze testing and assessments using a modified version of the CBPI questionnaire. The twenty dogs experiencing the highest level of discomfort were randomly assigned to two experimental groups: Amilextin® chew or placebo.

MODEL

There were three major variables tested in this study: Cumulative Discomfort Score based on the modified CBPI questionnaire, Cumulative Function Score based on the modified CBPI questionnaire, and Average latency (s) (time to traverse the T-maze test).

At baseline, for all tested parameters, there was no significant difference between the function scores of the control or Amilextin® groups.

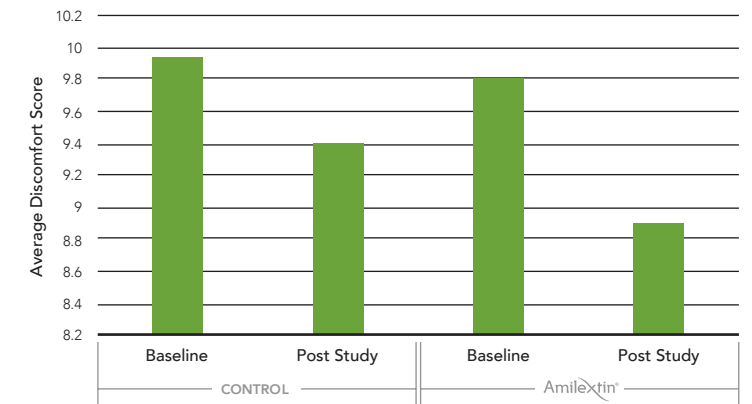

RESULTS

There was a significant decrease in the average latency of the Amilextin® group post study vs. baseline (p=.021) while there was no significant decrease in average latency in the control group post study vs. baseline (p=.141). There was a moderately significant decrease in the discomfort score of the Amilextin® group post study vs. baseline (p=.087) while there was no significant decrease in the discomfort score of the control group post study vs. baseline (p=.254). Both groups exhibited a trend toward decreased discomfort scores post-study, but only the Amilextin® group showed a moderately significant (p value <0.10) difference between post-study and baseline values.

SUMMARY

The Amilextin® group had statistically significant lower average traverse times in the T-Maze test post-study than the control group. Amilextin® also showed a moderately significant effect on cumulative discomfort scores based on a modified version of the CBPI questionnaire. Beagles in the Amilextin® group demonstrated improved joint function and less discomfort than the control group.

CBPI-Results

T-Maze (No NR's)

COMPOSURE™ PRO ADVANCED

New Composure™ Pro Advanced is our highest-concentration formula to address severe behavioral & cognitive issues. Five powerful active ingredients provide support against pet stress and anxiety.

- › 1.5x stronger than Composure™ Pro
- › Clinically shown to work within 30 minutes and last up to 4 hours
- › Contains Bluenesse® lemon balm extract & Suntheanine® L-theanine
- › Use daily or as needed—safe to double amount to achieve desired calming effect

›› 090038L.045
45 Chews

ACTIVE INGREDIENTS PER 1 CHEW (3.2 G):

Thiamine (Vitamin B1)	150 mg
Colostrum Calming Complex® Biopeptide Blend	76 mg
L-Tryptophan	75 mg
Bluenesse® <i>Melissa officinalis</i> extract	50 mg
L-Theanine (Suntheanine® Brand)	38 mg

Inactive Ingredients: arabic gum, barley flour, brewers yeast, calcium sulfate, canola oil, citric acid, citrus pectin, glycerin, hydrolyzed chicken liver flavor, maltodextrin, mixed tocopherols, oat flour, propionic acid, rosemary extract, rye flour, silicon dioxide, sodium alginate, sorbic acid, soy lecithin, vegetable oil, water.

DIRECTIONS FOR USE:

0-30 lbs:	½ chew daily
31-60 lbs:	1 chew daily
61+ lbs:	2 chews daily

Product can be given up to two times daily or on an as-needed basis. It is safe to double in times of increased stress.

Suntheanine® L-Theanine is Patented and Licensed by Taiyo International, Inc.
Colostrum Calming Complex® is a trademark of FoodScience® LLC.
Bluenesse®, is a trademark of Vital Solutions GmbH, Germany.

AMILEXTIN®

090083J.060
60 Bite-Sized Chews

Anivestin™ and AmLexin® are trademarks of Unigen, Inc.

Amilextin® may help relieve occasional inflammation and discomfort in dogs. Two clinically proven ingredients, AmLexin® and Anivestin™ may help relieve occasional soreness, protect joint cartilage and maintain a healthy inflammatory response.

- › Clinically proven ingredients may help relieve inflammation and ease discomfort from daily activity
- › No harmful side effects observed during extensive in vivo and in vitro testing
- › Delicious chicken liver-flavored chew

ACTIVE INGREDIENTS PER 1 CHEW (2.0 G):

AmLexin®	120 mg
<i>Morus alba</i> Extract (root and bark) and <i>Acacia catechu</i> Extract (heartwood)	
Anivestin™	75 mg
Chinese Skullcap Extract (<i>Scutellaria baicalensis</i>) (root) and <i>Acacia catechu</i> Extract (heartwood)	

Inactive Ingredients: arabic gum, brewers yeast, calcium sulfate, canola oil, citric acid, citrus pectin, glycerin, hydrolyzed chicken liver flavor, maltodextrin, mixed tocopherols, oat flour, propionic acid, rosemary extract, rye flour, silicon dioxide, sodium alginate, sorbic acid, soy lecithin, vegetable oil, water.

DIRECTIONS FOR USE:

Up to 20 lbs:	1 chew daily.
21 - 40 lbs:	2 chews daily.
41 - 60 lbs:	3 chews daily.
Over 60 lbs:	4 chews daily.

If giving more than one chew per day, divide between AM and PM.

CANINE MULTI PRO™

090065G.060
60 Bite-Sized Chews

Canine Multi Pro™ provides a comprehensive balance of vitamins, minerals, essential fatty acids and probiotics to help dogs maintain peak condition.

- › Contains 30 nutrients not always found in commercial dog foods or ordinary multivitamins
- › An excellent addition to homemade and raw diets
- › Powered by whole-food ingredients like sweet potato, alfalfa, kelp and carrots

*Not recognized as an essential nutrient by the AAFCO Dog Food Nutrient Profiles.

Ingredients: sweet potato, glycerin, cellulose, dicalcium phosphate, hydrolyzed duck flavor, arabic gum, dehydrated alfalfa meal, canola oil, dried kelp, soy lecithin, fish oil, maltodextrin, sodium alginate, calcium sulfate, calcium carbonate, carrots, water, dried *Bacillus coagulans* fermentation product, L-ascorbyl 2-polyphosphate, dried citrus pulp, magnesium oxide, vitamin E supplement, iron proteinate, potassium chloride, zinc proteinate, L-cysteine, manganese proteinate, sorbic acid (a preservative), betaine hydrochloride, dl-methionine, niacinamide, vitamin B12 supplement, mixed tocopherols (a preservative), citric acid (a preservative), rosemary extract, silicon dioxide, vegetable oil, propionic acid (a preservative), d-calcium pantothenate, inositol, copper proteinate, riboflavin, thiamine mononitrate, vitamin D3 supplement, vitamin A supplement, biotin, sodium selenite, pyridoxine hydrochloride, calcium iodate, folic acid.

FEEDING DIRECTIONS:

0-30 lbs:	½ chew daily
31-60 lbs:	1 chew daily
61+ lbs:	2 chews daily

CANINE SENIOR VITALITY PRO

090058H.060
60 Bite-Sized Chews

Designed to address common health concerns in senior dogs: cognition, immune function, normal inflammatory response and overall healthy aging.

- › Single chew that addresses multiple health concerns such as cognitive function, normal inflammatory response, immune and metabolic functions
- › Powered by extensively researched ingredients to deliver maximum health benefits
- › Groundbreaking canine supplement formulated with Magtein®, which is clinically shown to support cognition and brain health in animals

ACTIVE INGREDIENTS PER 2 CHEWS:

Magtein® (Magnesium L-Threonate)	450 mg	MicroActive® Resveratrol	75 mg
N,N-Dimethylglycine HCl (DMG)	250 mg	Yielding trans-Resveratrol	22.5 mg
Medium Chain Triglycerides (Coconut Oil)	240 mg	Choline (Choline Chloride)	40 mg
Omega 3 Fatty Acids (Fish Oil, Flaxseed Meal)	190 mg		

Inactive Ingredients: arabic gum, calcium sulfate, cellulose, citric acid, citrus pectin, glycerin, hydrolyzed duck flavor, maltodextrin, mixed tocopherols, oat flour, propionic acid, rosemary extract, silicon dioxide, sodium alginate, sorbic acid, soy lecithin, sweet potato, vegetable oil, water.

DIRECTIONS FOR USE:

0-30 lbs:	½ chew daily
31-60 lbs:	1 chew daily
61+ lbs:	2 chews daily

Recommended for dogs 7 years and older but suitable for all ages.

Magtein® is protected under US patents 8,178,118; 8,142,803; 8,163,301; and other patents and pending patents. Magtein® is a trademark of Magceutics®, Inc. and is distributed exclusively by AIDP, Inc. MicroActive® Resveratrol is a registered trademark of BioActives LLC.

CARDIO PRO

090063K.060
60 Bite-Sized Chews

Carniking® is a registered trademark of Lonza, Ltd

Cardio Pro features 12 active ingredients including vitamins, minerals and amino acids to support cardiovascular health and function in cats and dogs.

- › Features Carniking® L-Carnitine, a proprietary form of this essential amino acid that promotes a regular heartbeat and circulation
- › Recommended for animals with pre-existing heart issues, breeds pre-disposed to cardiovascular stress and senior or geriatric pets
- › Supports healthy blood flow, oxygen utilization, energy production, and normal cholesterol levels

ACTIVE INGREDIENTS PER CHEW (3.5 G):

Carniking® L-Carnitine	250 mg	Coenzyme Q10	20 mg
L-Taurine	250 mg	Hawthorn (<i>Crataegus oxyacantha</i>) Berry Extract	10 mg
N,N-Dimethylglycine HCl	50 mg	Folic Acid	0.9 mg
Berberine (<i>Hydrastis canadensis</i>) HCl	50 mg	Magnesium (Magnesium Oxide)	0.5 mg
Eicosapentaenoic Acid (EPA) (Fish Oil)	25 mg	Potassium (Potassium Citrate)	0.1 mg
d-alpha Tocopheryl Acetate (Vitamin E)	30 IU	Selenium (Sodium Selenite)	0.007 mg

Inactive Ingredients: arabic gum, black currant seed oil, brewer's yeast, calcium sulfate, canola oil, citric acid, citrus pectin, glycerin, hydrolyzed chicken liver flavor, maltodextrin, mixed tocopherols, oat flour, oat meal, propionic acid, rosemary extract, rye flour, silicon dioxide, sodium alginate, sorbic acid, soy lecithin, vegetable oil.

DIRECTIONS FOR USE:

Dogs: Give 1 chew per 30 lbs of body weight, daily. If giving more than 1 chew, divide between AM and PM.
Cats: Give ½ chew, daily.

Break into smaller pieces for finicky eaters.

COMPOSURE™ PRO

Composure™ Pro is an advanced calming supplement clinically shown to work within 30 minutes and last up to 4 hours.* It's recommended for times of heightened stress, including traveling, vet and grooming visits, thunderstorms and fireworks.

› Clinically shown to work within 30 minutes and last up to 4 hours*

› Can be used daily or as needed—no loading dose

› Safe to double the amount as needed in times of increased stress

› Delicious, easy-to-give chew or liquid that doesn't require special handling

DIRECTIONS FOR USE:

COMPOSURE™ DOG & CAT CHEWS:
0-30 lbs:

COMPOSURE™ CAT CHEWS:
Give 1-2 chews daily.

BOTH CHEW FORMULAS: Product can be given up to two times daily or on as needed basis. It is safe to double the dose in times of increased stress.

COMPOSURE™ LIQUID:
Shake well before each use. Use syringe to administer product orally or directly into pet's bowl at meal time.

Under 25 lbs:

During Times of Increased Stress:
It is safe to double the above amount as needed.

SPECIALTY PRODUCT

RENAL ESSENTIALS PRO LIQUID

Renal Essentials Pro Liquid is an advanced kidney supplement, specifically formulated to meet the needs of your feline patients. It's recommended for senior and geriatric cats and can support kidney and UT health alongside traditional approaches.

090029L.004
4 fl oz

- Easily administered kidney and urinary tract support
- Feline-specific liquid formula with enhanced flavoring
- With astragalus root, *Rehmannia*, *Cordyceps* and nettle leaf

ACTIVE INGREDIENTS PER 2 ML:

Astragalus Root Powder	60 mg
<i>Rehmannia glutinosa</i> Root Extract	50 mg
<i>Cordyceps sinensis</i> Extract	50 mg
Nettle (<i>Urtica dioica</i>) Leaf Extract	50 mg
N,N-Dimethylglycine (DMG)	25 mg
Methylcobalamin (Vitamin B12)	0.05 mg

Inactive Ingredients: chicken flavor, glycerin, malt extract, natural flavor (cream flavor), potassium sorbate, rosemary extract, water.

DIRECTIONS FOR USE:

Give 2 ml daily orally or in food.

Daily amount may be divided between AM and PM.

DERMA 3.6.9.™ PRO

090026A.060
60 Bite-Sized Chews

SPECIALTY PRODUCT

Derma 3.6.9.™ Pro combines essential fatty acids, vitamins and amino acids in a flavorful chew that provides a quick and easy way to deliver the nutrients needed for skin and coat health.

- Supports skin and coat health, and helps reduce unseasonal or excessive shedding
- Combines biotin, omega 3, 6, 9 amino acids, and antioxidants in a duck-flavored chew
- Cost effective and easy-to-administer chews help ensure compliance

DERMA STRENGTH PRO™

090072G.090
90 Bite-Sized Chews

SPECIALTY PRODUCT

Derma Strength Pro™ is a hypoallergenic* formula which supports healthy skin structure, texture and resiliency. It's recommended to provide additional dermatological support to pets following surgeries, or those dealing with occasional allergies and secondary skin afflictions.

- Hypoallergenic* formula limits exposure to ingredients to help avoid additional allergy issues
- Formulated to strengthen the skin barrier which may help the body combat pathogens
- Phytosome technology allows superior bioavailability and higher blood levels of antioxidants

ACTIVE INGREDIENTS PER CHEW:

Quercetin Phytosome™	125 mg	Hyaluronic Acid (HyaMax® Low Molecular Weight Sodium Hyaluronate)	5 mg
Omega 6 Fatty Acids	65 mg	Oligonol® (low-molecular weight Lychee (fruit) and Green tea (leaf) extract)	5 mg
Perilla (<i>Perilla frutescens</i>) Seed Extract	40 mg		
Omega 3 Fatty Acids	26 mg		

Inactive Ingredients: arabic gum, calcium sulfate, cellulose, citric acid, citrus pectin, hydrolyzed duck flavor, flaxseed meal, flaxseed oil, glycerin, maltodextrin, mixed tocopherols, propionic acid, rosemary extract, safflower oil, silicon dioxide, sodium alginate, sorbic acid, sunflower lecithin, sweet potato powder, vegetable oil, water.

DIRECTIONS FOR USE:

0-25 lbs:	1 chew daily
26-50 lbs:	2 chews daily
51+ lbs:	3 chews daily

Extra Support: Double the dose for the first 4 weeks.

*No wheat, corn, or chicken.

61+ lbs: 1/2 tsp (approx. 2.0 g), daily.

For pets 6 months and younger, use a half dose.

ENTERO HEALTH PRO

090026F.060
60 Bite-Sized Chews

GASTROINTESTINAL HEALTH

*Kleintier Medizin's Study, Selles M., Castillo V., Martinez-Puig D., Velasco A., Chetrit C. "Efficacy of Entero-chronic® in dogs with chronic enteropathies: A prospective observational study"

Entero Health Pro supports long-term intestinal health and may help manage loose stools in cats and dogs. Entero Health Pro helps normalize bowel function by supporting the protective layers of the GI tract.

- › Entero-Chronic® blend has been clinically studied to show favorable results in dogs with loose stools*
- › Zinc carnosine and Slippery Elm Bark help soothe an irritated GI tract and increase comfort
- › Maintains the three critical areas of the GI tract: microflora environment, mucin layer, intestinal infrastructure

ACTIVE INGREDIENTS PER CHEW:

Entero-Chronic® proprietary blend (α-Glucans, mannan oligosaccharides (MOS), β-Glucans, mucopolysaccharides) 1500 mg
L-Glutamine 200 mg
Slippery Elm (*Ulmus rubra*) Bark 100 mg
L-Arginine 40 mg
PepZin GI® Zinc Carnosine (ZnC chelate complex) 40 mg

Inactive Ingredients: arabic gum, bentonite, calcium sulfate, cellulose, citric acid, citrus pectin, hydrolyzed duck flavor, ferric oxide, glycerin, maltodextrin, mixed tocopherols, propionic acid, rosemary extract, silicon dioxide, sodium alginate, sorbic acid, soy lecithin, sweet potato powder, vegetable oil, water.

DIRECTIONS FOR USE:

ADULT DOGS:

0-30 lbs: 1 chew daily
31-60 lbs: 2 chews daily
61+ lbs: 3 chews daily

ADULT CATS:

All weight ranges: ½ chew daily

For best results, cut chew to halve.

FAST BALANCE GI PRO

0900470.060
60 cc Tube

GASTROINTESTINAL HEALTH

Fast Balance GI Pro is a fast-acting, easy-to-administer paste that provides immediate support for diarrhea and other GI challenges.

- › Probiotics, prebiotics and B vitamins provide immediate GI support in times of distress
- › Recommended for GI health issues, garbage gut, environmental stress or travel-induced diarrhea
- › Easy dial-a-tube dosing that can be used multiple times daily or until results occur

ACTIVE INGREDIENTS PER 10 CC:

Vitamin B5 (Pantothenic Acid) 10.5 mg *Enterococcus faecium*, *Lactobacillus casei*, *Lactobacillus plantarum* fermentation products, Dried *Aspergillus niger* fermentation extract) 1.3 x 10⁹ CFU
Vitamin B6 (Pyridoxine HCl) 2.5 mg *Saccharomyces cerevisiae* 3.4 x 10⁹ CFU
Dried *Aspergillus oryzae* fermentation extract 1.89 mg *Bacillus subtilis* 3.8 x 10⁹ CFU
Vitamin B2 (Riboflavin) 1.0 mg
A Proprietary Blend of (Dried *Lactobacillus acidophilus*,

Inactive Ingredients: glucose, sucrose, vegetable oil, yeast fermentation solubles.

DIRECTIONS FOR USE:

Dogs and Cats: Administer orally at recommended servings listed below until results occur.

Body Weight	Serving	Per Day
Up to 10 lbs	5 cc	2 times
11 to 20 lbs	5 cc	3 times
21 to 30 lbs	10 cc	3 times
31 to 50 lbs	15 cc	3 times
51 lbs and over	20 cc	3 times

FELINE FURBALL PRO

090096A.060
60 Bite-Sized Chews

Feline Furball Pro is an advanced formula that helps reduce hairballs by supporting skin and digestive health.

- › Helps to reduce hairballs by breaking down the mucus that holds ingested hair together
- › Innovative formula with probiotic bacteria for GI, UT, immune and skin support
- › Combines Zinc, Biotin, Omega 3 and 6, Psyllium fiber, and Probiotic bacteria in a palatable chew

ACTIVE INGREDIENTS PER 2 CHEWS:

Omega 6 Fatty Acids (Flaxseed, Safflower Oil)	80 mg
Omega 3 Fatty Acids (Flaxseed, Safflower, Salmon Oil)	35 mg
Psyllium (<i>Plantago ovata</i>) Husk Powder	25 mg
Cranberry Powder	10 mg
Zinc (Zn Proteinat)	5 mg
Biotin	1 mg
Papain (Papaya)	20 mg
<i>Bacillus coagulans</i>	1,000,000 CFU

Inactive Ingredients: arabic gum, brewers yeast, calcium sulfate, citric acid, citrus pectin, dried whey, glycerin, hydrolyzed chicken liver flavor, maltodextrin, mixed tocopherols, oat flour, oat meal, propionic acid, rosemary extract, rye flour, silicon dioxide, sodium alginate, sorbic acid, soy lecithin, vegetable oil, water.

DIRECTIONS FOR USE:

General skin health: Give 2 chews daily.
To support the removal of hairballs: Give 4 chews, twice daily, for 2-4 days.

GI BALANCE PRO®

090023F.060
60 Bite-Sized Chews

31-60 lbs: 2 chews daily
61+ lbs: 4 chews daily

For cats that are finicky eaters, break or cut chews in half.

L-LYSINE PRO

090025F.120
120 Bite-Sized Chews

PERIO SUPPORT PRO

0900988.016
Powder

*Hemopet Study "Evaluation and Comparison of the Effectiveness of VetriScience Powdered Perio Support on the Reduction of Plaque, Calculus, and Gingivitis in Adult Dogs"

L-Lysine Pro is intended to complement traditional protocols to support immune system, eye and respiratory health.

- › Recommended for multi-cat households, times of stress and cats susceptible to upper respiratory challenges
- › L-Lysine is an essential amino acid that stimulates production of antibodies, hormones and enzymes
- › Supports healthy growth and development through collagen formation

ACTIVE INGREDIENTS PER 2 CHEWS (4 G):

L-Lysine 500 mg
N,N-Dimethylglycine HCl (DMG) 50 mg

Inactive Ingredients: arabic gum, brewers yeast, calcium sulfate, hydrolyzed chicken liver flavor, canola oil, citric acid, citrus pectin, glycerin, maltodextrin, mixed tocopherols, oat flour, rosemary extract, rye flour, silicon dioxide, sodium alginate, sorbic acid, soy lecithin, vegetable oil, water.

DIRECTIONS FOR USE:

Adult Cats: Give 1 to 2 chews, twice daily
Kittens: Give 1 chew, twice daily

For cats that are finicky eaters, break or cut chews in half.

Perio Support Pro is a clinically proven dental health formula designed for use between veterinary dental cleanings to support health of teeth and gums.

- › Tasty, aromatic powder that's easily administered to cats and dogs
- › Supports dental health between exams and cleanings
- › Perio Support reduced the prevalence of plaque by 20% and tartar by 18% in a double-blind testing of 20 dogs in just 28 days*

ACTIVE INGREDIENTS PER 2.5 G (APPROX. 1 TEASPOON):

Natural Zeolites 500 mg
Proprietary Probiotic Blend (*L. acidophilus*, *E. faecium*, *B. subtilis*, *L. casei*, *L. fermentum*, *L. plantarum*) 355 mg
Cranberry Powder 25 mg
Yucca schidigera Extract 7 mg
Taurine 1.25 mg
Zinc (Zn Ascorbate) 0.8 mg

Inactive Ingredients: anise oil, calcium carbonate, dried *Aspergillus niger* fermentation extract, dried *Aspergillus oryzae* fermentation extract, fenugreek seed extract, silicon dioxide, vegetable fat, yeast fermentation solubles.

DIRECTIONS FOR USE:

Up to 15 lbs: ¼ tsp per meal
16 - 30 lbs: ½ tsp per meal
31 - 60 lbs: ¾ tsp per meal
61 - 90 lbs: 1 tsp per meal
91 lbs - 120 lbs: 1 ½ tsp per meal
Over 120 lbs: 2 tsp per meal

VETRIFLEX®

VetriFlex® is recommended for the structural support of joints and soft tissues, as well as a healthy inflammatory response in all organs. VetriFlex® starts with our clinically proven GlycoFlex® formula and adds low molecular weight hyaluronic acid and phytosome technology to promote absorption for an exceptional vet-strength formula.
